

mobile SCRA's for Banking

Mobile Secure Card Reader Authenticators

Financial Institutions can future-proof investments when they choose MagTek solutions. Protect your brand and enhance your customer experience with MagTek's mobile Secure Card Reader Authenticators (SCRAs). SCRAs connect to most mobile smart phones or tablets and can capture more data with a single swipe. SCRAs offer the flexible options customers need with a stable swipe path for ease-of-use. SCRAs deliver dynamic card authentication, data encryption, tokenization, and device/host authentication to protect customers from identity theft and card fraud by pro-actively identifying counterfeit cards. MagTek has you covered with the most dynamic and flexible solutions that deliver the configuration choices and reliability even the most discriminating customers know and trust.

Better stability for faster, easier transactions

MagTek's rugged and ergonomic SCRAs capture more data with a single swipe and offer the flexible options customers need for ease-of-use. SCRAs are designed to work in the field and provide a smooth, stable swipe path for reliable card reading that yield the highest read reliability on first pass.

Lobby service representative

Now financial institutions can bring multiple, low-cost, service terminals directly to customers increasing convenience and security. Customer's will be impressed by the use of technology to simplify their visit and provide faster and improved service. Representatives will enjoy the sturdy swipe path and intuitive, user-friendly devices.

Secure mobile transactions

MagTek mobile secure card reader authenticators (SCRAs) use the MagneSafe® Security Architecture (MSA). The MSA has evolved exponentially from its inception in 2006 when it delivered the industry's first SCRAs for secure electronic transactions. The MSA is a digital identification and authentication architecture that safeguards consumers and their personal data. Designed to exceed PCI regulations, MSA leverages strong encryption, secure tokenization, counterfeit detection, tamper recognition, data relevance and integrity, and dynamic digital transaction signatures, which together validate and protect the entire transaction and each of its components.

A key feature of the MSA is MagnePrint® card authentication, a patented, proven technology which reliably identifies counterfeit credit cards, debit cards, gift cards, ATM cards and ID cards at the point of swipe, before fraud occurs. MSA's multi-layer security provides unmatched protection and flexibility for safer online transactions.

Merchant Service Solutions

MagTek is your partner and offers your merchant customers an easier way to accept mobile payments securely with QwickPAY. QwickPAY delivers a broad range of compatibility, allowing browser-based, iOS, and Android devices to evolve into highly secure payment systems. QwickPAY provides a payment processing platform, an account management system, a virtual terminal, reporting, encryption, card and device authentication, counterfeit card detection and card tokenization brought to you by MagTek, an industry leader in credit card and POS peripherals.

With the QwickPAY App, a merchant account, and SCRA, your business merchants can easily accept Visa, MasterCard, Amex, Discover and Qwick Codes payments from almost anywhere. This minimizes check handling, teller line transactions and reduces cash handling while creating new revenue streams.

Versatility and Reliability

Simple device connection and a reliable swipe path, make training fast, which is really important in seasonal businesses or retailers with higher turnover rates. Designed for simplicity, mobile SCRAs allow retailers to focus on business with direct integration into existing POS terminals and existing merchant accounts. MagTek offers a comprehensive platform of drivers, APIs, and SDKs for fast development and easier integration.

No other card readers beat the protection offered by MagneSafe.

eDynamo (USB or Bluetooth LE)

eDynamo, MagTek's newest secure card reader authenticator, gives users the flexibility needed to securely accept a variety of payment card technologies. Whether accepting a traditional magnetic stripe card or a contact EMV card, eDynamo gives merchants the ability to connect via USB or Bluetooth® Smart, delivering one reader for mobile or stationary needs. This design leads to saving the user money on a single, low-cost, yet highly secure device.

The dual interface delivers compatibility for traditional Microsoft Windows computers in addition to Bluetooth Smart (BLE) compatible tablets and smartphones. The low energy consumption extends the life of its rechargeable battery when interfacing via BLE, and the USB wired connection keeps eDynamo up and running without worrying about battery life. eDynamo is a flexible, reliable, and secure card reading solution.

iDynamo 5 (Gen II) (Lightning)

Mobile merchants can now leverage the power of their iPad, iPhone and iPod touch products without the worries of handling or storing sensitive card data at any time. Ideal for merchants and mobile users, the iDynamo offers MagneSafe security features combined with the power of iPad, iPhone and iPod Touch products with either 30-PIN or Lightning interface options. This powerful combination assures convenience and cost savings while maximizing card data protection and transaction security from the moment the card is swiped all the way to authorization.

Made for iPhone 14 Pro Max, iPhone 14 Pro, iPhone 14 Plus, iPhone 14, iPhone SE (3rd generation), iPhone 13 Pro Max, iPhone 13 Pro, iPhone 13, iPhone 13 mini, iPhone 12 Pro Max, iPhone 12 Pro, iPhone 12, iPhone 12 mini, iPhone 11 Pro Max, iPhone 11 Pro, iPhone 11, iPhone XS Max, iPhone XS, iPhone XR, iPhone X, iPhone 8 Plus, iPhone 8, iPhone 7 Plus, iPhone 7, iPhone 6s Plus, iPhone 6s, iPhone 6 Plus, iPhone 6, iPad Pro 10.5-inch, iPad Pro 12.9-inch (2nd generation), iPad Pro 9.7-inch, iPad Pro 12.9-inch (1st generation), iPad Air 2, iPad Air, iPad mini 4, iPad mini 3, iPad (6th generation), iPad (5th generation)

iDynamo 6 (USB-C or Lightning)

iDynamo 6 delivers a smart solution for companies that need the most flexibility in the smallest form-factor at a great price. The versatile mounting bracket enhances mechanical stability with many types of deployment scenarios including desktop computers, mobile handsets, and tablets, regardless of size and form-factor. The universal mounting bracket uses a suction-cup-design that attaches to the host-device of your choice and provides for a stable swipe, dip, or tap experience. Contactless and NFC reading requires connection to and power from, a fully-powered USB-C port or must be attached to its re-chargeable battery pack. The battery pack gives users the reliability they need in mobile payment scenarios.

iDynamo 6 USB-C - Direct mount or cabled connection to Android hosts with USB C port and USB On-The-Go (OTG), to iOS hosts with USB C connector, and to Windows hosts with USB C connector.

iDynamo 6 Lightning - Made for iPhone 12 Pro Max, iPhone 12 Pro, iPhone 12, iPhone 12 mini, iPhone 11 Pro Max, iPhone 11 Pro, iPhone 11, iPhone XS Max, iPhone XS, iPhone XR, iPhone X, iPhone 8 Plus, iPhone 8, iPhone 7 Plus, iPhone 7, iPhone 6s Plus, iPhone 6s, iPhone 6 Plus, iPhone 6, iPad Pro 10.5-inch, iPad Pro 12.9-inch (2nd generation), iPad Pro 9.7-inch, iPad Pro 12.9-inch (1st generation), iPad Air 2, iPad Air, iPad mini 4, iPad mini 3, iPad (5th and 6th generation).
